

March 2018

ARMA NOVA CHAPTER MEETING

People, Process & Technology – Learn the steps to success for your organization's business information!

Advanced Technologies for Information Governance: A Discussion on Blockchain, Custodianship and File Analysis

Presented by **Rich Hale - Chief Technology Officer, Active Navigation**

Event Date: Wednesday, March 21, 2018
Location: Holiday Inn at Ballston
Meeting: 6:00PM – 8:30PM
Cost: \$30 ARMA or AIIM Member (see details below)

Modern records management is dependent on information governance as a means of establishing regulatory compliance, risk aversion and best practice. But -- what is encompassed within a successful IG program and how is it achievable at scale?

In this discussion, Rich will detail how different technologies help to provide essential support in building and maintaining a robust information governance program. While no 'silver bullet' tool exists to automate records management or information governance from end-to-end, software automation enables subject matter experts to apply their expertise and business policies onto large sums of data, at scale. Without these technologies, such as file analysis, information governance programs cannot be applied to enterprise approaches to records management.

Our 2017-2018 chapter theme this year is,
"Records Management: Not Just a Job - A Profession."

Find out why so many people keep coming back to ARMA NOVA meetings

- **Earn 1 CEU for many credentials, including CRM and IGP, and potentially PMP, CIP, etc.**
- **Create or strengthen connections with colleagues and potential business partners**
- **Hear from world-class speakers on cutting edge Records and Information Management and Information Governance topics**

MEETING AGENDA

6:00 PM – 6:30 PM	Registration & Networking with Peers
6:30 PM – 7:30 PM	Dinner
7:30 PM – 8:30 PM	Meeting Program

OUR SPEAKER

Mr. Rich Hale, Chief Technology Officer, Active Navigation

Rich is the CTO for Active Navigation. Before joining the team to lead product development, Rich served a full career in the Royal Air Force. He became passionate about information governance and content valuation when he took on the RAF's global information management and governance program.

Combining his experience with information governance and his years of technological development, he now focuses on pioneering technologies and practical approaches that enable organizations to discover, value and take control of their information estate.
